2017 ANNUAL DONOR REPORT // SEPTEMBER 1, 2016 - AUGUST 31, 2017

# Your 2017 gift is helping Emory College go beyond

---

Annual gifts help make Emory College more than a destination for talented students and faculty. It is a place where passions are discovered, intellectual diversity abounds, opportunities for innovative inquiry are prolific, and knowledge and skills are cultivated that will lead to lives of consequence beyond Emory. Your gifts collectively strengthen the pursuit of discovery, creativity, and impact here on campus and throughout the world. Together, 4,720 donors—including you—fuel our ambitions!

Any gift up to \$25,000 to Emory College within the fiscal year is counted as an annual gift.

## LEADERSHIP GIVING

---

By giving \$1,000 or more (\$500+ for graduates of the past decade) annually, Wise Heart Society members lead the way in support for teaching, scholarship, and research that upholds Emory's motto, *Cor Prudentis Possidebit Scientiam*—the wise heart seeks knowledge. Our loyal Wise Heart Society donors are vital partners in Emory College's pursuit of continued excellence in undergraduate education.

## YOUR GIFT SUPPORTS TALENTED SCHOLARSHIP STUDENTS

Your support means Emory College can attract the most talented students and deliver an exceptional and accessible education.

**ALEXA DANTZLER 17C** of Manassas, Va., earned highest honors as a double major in biology and African studies. To inspire female students of color to become researchers in science, technology, engineering, and math, Alexa founded SOAR, a program that connects disadvantaged Atlanta high school students with Emory students and faculty for mentorship and research opportunities. “No matter your background, you should still have the opportunity to have a career in science,” she says. “One student can guide others and help them along the way.”

## YOUR GIFT SUPPORTS AMAZING UNDERGRADUATE RESEARCH

Your generosity advances undergraduate research, which makes Emory College a special draw to many students. Faculty members help channel students' curiosity into answering questions relevant to today's society.

**NOAM KANTOR 17C** of Clayton, Mo., went deep into number theory with Assistant Professor David Zureick-Brown, resulting in the prestigious Goldwater and Marshall Scholarships. This ability to create and solve difficult formulas could solve cybersecurity breaches or credit card fraud. "Now I see the structure and the beauty in it, and can see people working on my ideas in real life," says Noam, who will start his PhD at Oxford University.
