FACET-Faculty Search /Interfolio

This applicant tracking and search committee tool is especially designed to assist the search committee and its administrator. This system is utilized for viewing, managing, and organizing the candidate’s submissions. Administratively helpful in the posting, review, and selection process.

Utilizing FACET- Faculty Search and Compliance

Faculty Search/Interfolio will be the official data of record for all applicants, candidates, and final selection.

The official record comes with the responsibility of ensuring that data for all applicants and positions posted includes all compliant information. As a federal contractor and the recipient of federal dollars we are obligated to follow the rules of the OFCCP (Office of Federal Contract Compliance Programs).

This agency audits Emory on a regular basis to ensure we follow the guidelines of a federal contract employer. The audit process ensures that we have made a “good faith effort” to hire women and minorities in all positions.

What steps ensure a compliant search?
