Notes on IB Courses

- Credit is awarded for Higher Level exams only.
- All IB courses are equal to 3 credit hours on the Emory transcript.
- Where two exams are offered in one field, for example English Literature and English Language, languages, or computer science, credit will be offered for one but not both exams.
- Students who take both the AP and IB tests for the same course are eligible to have only one test posted for the course
- For all IB language courses, it must be determined whether or not the student took the IB course in her or his native language. Credit will normally be given only for Group 2 Language Acquisition (Language B) courses; however, students who complete Group 1 Studies in Language & Literature (Language A) courses outside their native language may also receive credit.

- Language course equivalents are for the purpose of awarding credit only and do not indicate a student's level of placement in a language. Students taking IB language exams may be placed in a higher language course and should take the relevant placement test to determine the appropriate course to take.
- A student may receive credit for only one English IB test and for one test in a particular language, either in Group 1 or Group 2.
- Emory University may accept language exams other than those here listed upon petition.
